BOIL WATER ADVISORY

Customers of the Inman-Campobello Water District

February 20, 2026

Beginning at 10:45 a.m.

The Inman-Campobello Water District (ICWD) is advising the customers located in the area listed below to vigorously boil their water for at least one (1) full minute prior to drinking or cooking. If water is used for drinking, allow the water to cool to desired temperature after boiling. Any ice made from water which has not been boiled should not be used for drinking purposes during this time.

Area: All Inman-Campobello Water District (ICWD) customers North of Polk Central Elementary School. (See Map)

Reason: An interruption of water service occurred in your area due to a water main repair. There should be no contamination to the system. However, because of the loss of pressure or loss of water to your area, the potential for contamination exists. Residents should continue to vigorously boil their water for at least one (1) full minute prior to drinking or cooking until notified by the ICWD. Also, any ice made from water which has not been boiled should not be used for drinking purposes.

What's Being Done: Water system personnel and/or contractors will work quickly to restore service to this location.

Repeal: The conditions of the **ADVISORY** should be followed until notified through a Repeal by the ICWD. The Repeal will be delivered in the same manner as the **Boil Water Advisory**. The ICWD expects the repeal to be issued by 11:30 p.m tonight February 20, 2026.

The ICWD apologizes for any inconvenience this may cause. If you should have any questions concerning this advisory, please contact the ICWD office.
