# BOIL WATER ADVISORY

## Customers of the Inman-Campobello Water District

## April 27, 2026

**Please be advised that an interruption of water service in your area is scheduled to occur on Monday, April 27, 2026, beginning at approximately 9:00 A.M. This interruption is due to the relocation of the water main. The relocation is required because Spartanburg County is installing an arch culvert. It is anticipated that water service will be restored in approximately six hours but many factors could shorten or lengthen this estimate.**

**Once water service is restored, as a precautionary measure, the Inman-Campobello Water District (ICWD) is advising the customers located in the area, listed below to vigorously boil their water for at least one (1) full minute prior to drinking or cooking. If water is used for drinking, allow the water to cool to desired temperature after boiling. Any ice made from water which has not been boiled should not be used for drinking purposes during this time.**

**Area:** Old John Dodd Rd from Belcher Rd to Stoney Brook Dr, Parkway Village Rd Silver Ridge Rd and Highland View Rd.

**Reason:** An interruption of water service will occur in your area due to the relocation of the water main. This intrruption is expected to last approximately 6 hours. There should be no contamination to the system. However, because of the loss of pressure or loss of water in your area, the potential for contamination exists. Residents should continue to vigorously boil their water for at least one (1) full minute prior to drinking or cooking until notified by the ICWD. Also, any ice made from water which has not been boiled should not be used for drinking purposes.

**What's Being Done:** Once the interruption of service occurs, water system personnel and/or contractors will work quickly to restore service to the location.

**Repeal:** The conditions of the **ADVISORY** should be followed until notified through a Repeal by the ICWD. The Repeal will be delivered in the same manner as the **Boil Water Advisory**. The repeal is typically issued within **two (2) business days** from the time the water line is put back into operation.

The ICWD apologizes for the inconvenience this may cause. If you should have any questions concerning this advisory, please contact the ICWD office. Also, if weather or other unexpected events make it necessary to reschedule this interruption of service, this advisory will be revised and available on the ICWD website (www.ICWD.org).
